All Plan Submittals shall be submitted to the Codes / Stormwater Department. Submittal shall consist of 7 sets of Site, Grading, Drainage and Utility Plans. Only 1 set of supporting stormwater documents such as the SWPPP and Drainage Calculations are required. The Codes / Stormwater Department will distribute the plans to all utility departments and will include their comments in one submittal back to the applicant. Final approval will also require the Erosion and Sedimentation Control Plan to be submitted by pdf.
